

## Swinomish Indian Tribal Community Department of Environmental Protection

11430 Moorage Way - LaConner, WA 98257 - 360.466.7280 - 360.466.1615 fax

## **CWA SECTION 401 WATER QUALITY CERTIFICATION APPLICATION**

<u>Applicants shall be charged a **\$250.00** application fee at the time of application</u>. This application form must be completed even if an accompanying US Army Corp of Engineer's (ACOE) application form (typically a Joint Aquatic Resources Permit Application, JARPA) duplicates this information. Only designated questions may be left blank and refer to attached ACOE application.

X I have attached documentation of a pre-filing meeting request submitted at least 30 days prior to this submittal. For more details, see <a href="https://swinomish-nsn.gov/resources/environmental-protection/dep-services/environmental-protection/environme

SECTION 1 — APPLICANT AND PROPERTY INFORMATION (attach additional information as necessary)

## SECTION 3 - DISCHARGE INFORMATION

(this section must be completed, ACOE/JARPA application may NOT substitute for answers to this section)

10. A description of any discharge into Regulated Surface Waters which will or may result from the conduct of the activity, including the biological, chemical, thermal, and other characteristics of the discharge, and the location or locations at which such discharge may enter Regulated Surface Waters. Water containing elevated levels of suspended solids may be generated during excavation activities in the stormwater ditch. If excavation dewatering is necessary, dewatering water will be directed to an upland area to infiltrate into the ground. Excess water that does not infiltrate will be treated through a combination of settling in place and vegetative filtering to remove suspended solids prior to re-entering the stormwater ditch

will or may be disch treatment expected	arged as a result of t	he activity, includi	ng specification of the	degree of
Dewatering water will be treated by a combination of infiltration, settling, and vegetative filtering.
